Authors' responses to **Anonymous Referee #1**

For clarity:

Reviewer comments are in italics

Authors' responses are in bold

Once revised the manuscript, I think that the authors have done a good job of addressing my comments on the revision of this manuscript. Figures, tables and Figure captions have been clarified in order to have better understanding the readers. Text
C72

has been also revised including most of the reviewer comments. Thus, the revised manuscript meets the high quality standards of GI. I agree with the current manuscript.

We thank the reviewer for their assessment of the manuscript.
