

Interactive comment on “A comprehensive data acquisition and management system for an ecosystem-scale peatland warming and elevated CO₂ experiment” by M. B. Krassovski et al.

Dr. Valero (Referee)

valero@ucm.es

Received and published: 7 September 2015

Once the authors have taken into account the suggestions of my review, I have not incovenient to be accepted the manuscript in its actual form. Francisco Valero
