Received and published: 4 November 2016

The authors would like to thank the reviewers for their time and effort and constructive feedback. We have tried to address all comments and concerns and feel that the manuscript is now much improved. We have uploaded a response to reviewers PDF documents that provides a response to each and every comment from reviewer #1 and #2 as the supplement file associated with this comment. Within the supplement document, the original reviewer comments have been highlighted in blue. Our responses are in black. All changes/additions to the text have been italicized with page and line numbers indicated (referenced to the PDF version of the revised MS Word manuscript with track changes on - uploaded as a second supplement in the author's following comment titled: 'Revised Manuscript - Track Changes').
