Interactive comment on "Expanding HadISD: quality-controlled, sub-daily station data from 1931" *by* Robert J. H. Dunn et al.

H. Svedhem

hsvedhem@rssd.esa.int

This manuscript was first submitted to the EGU Journal Climate of the Past and went through a full discussion and review in the Climate of the Past Discussion. See http://www.clim-past-discuss.net/cp-2015-137/ Following the review it was agreed to transfer the manuscript to Geoscientific Instrumentation, Methods and Data Systems. The authors have reacted to the comments referenced above and resubmitted a revised manuscript. This revised version is accepted by GI Editors and this discussion is therefore closed before the nominal duration. H. Svedhem, GI Executive Editor
