

Interactive comment on “Automatic True North detection during absolute magnetic declination measurement” by Alexandre Gonsette et al.

Alexandre Gonsette et al.

agonsett@meteo.be

Received and published: 8 August 2017

One minor correction: Capitalise the document title on Page 10, line 8. Otherwise accept as is. Thanks to the authors for taking on board previous comments.

I will change as follow:

St-Louis, B.J.: INTERMAGNET Technical Reference Manual, V4.6, INTERMAGNET, <http://www.intermagnet.org/publication-software/technicalsoft-eng.php>, 2012

However the guidelines for authors suggests:

Titles and headings follow sentence-style capitalization (i.e. first word and proper nouns only).

So I suppose that it will be corrected during the proofreading step.
