"The Magnetic Observatory on Tatuoca, Belém, Brazil: History and Recent Developments"

The paper is a nice description of the history of Vassouras Magnetic Observatory. The references are quiet broad of the whole information involved with this observatory.

A few comments on special details:

Page 1. Row13: correction for (195, 1955) Page 2. Row11: Better use History than Story Page 3, Row 11: Should be Edinburgh Page 3, Row 25: Confusing text Google, should be in references Page 4, Row 2: Is not clear the "with Circle" position, at least should be the number of the figure Page 4, Row 9: Reference (Newitt et al., 1996) should be without page numbers, there are other examples Page 5, Row 6, bad redaction "and one technician and" Page 10, Row 9. Lack of parenthesis Page 15, Row 1. Wrong reference Format.

Sincerely E. Hernández Quintero
