Interactive comment on "The Magnetic Observatory on Tatuoca, Belém, Brazil: History and Recent Developments" *by* Achim Morschhauser et al.

E. HERNANDEZ-QUINTERO (Referee)

estebanh@geofisica.unam.mx

Received and published: 5 May 2017

The correspond revewer made a great revision of the manuscript. Even mentioned more details than myself.

I agree with the whole comments. On an overview I might suggest to complete the history of Tatuoca with names of people that I myself knew, for example Teotonio or Luiz Muniz Barreto who by the 80's were of great help to keep the operation of this very important observatory.

Will be a nice and rich work once published.
