Received and published: 24 August 2017

We would like to express our gratitude for corrections and advice. Authors followed all advices and did required corrections. Some advises were connected with language. Indicated sentences were improved and appropriate clarifications were added. Authors added some clarifications to figures. Various reflections described in the text were highlighted (by green arrows or boxes). This improved legibility of the paper. Authors explained the term "velocity pull-up" . The part about dimensions of the crypt in part 3.2. was clarified. A subtle change in the value was done for better understanding. The most important corrections are marked with a green colour in the manuscript.
