

## ***Interactive comment on “Automatic detection of calving events from time-lapse imagery at Tunabreen, Svalbard” by Dorothée Vallot et al.***

### **Anonymous Referee #4**

Received and published: 28 January 2019

The text has to be checked to improve the language. Some terms used are confusing. Although the used method shows some significant complexity the authors should try to underline their results with some more quantitative details, i.e. to what degree the SOC could be confirmed.

Please also note the supplement to this comment:
