Received and published: 5 December 2019

This is John R. Gray, peer reviewer of the subject manuscript, submitting the results of my review by:

1. Checking boxes on this website, and
2. Submitting a 7-page .pdf file that summarizes my NON-anonymous as a "supplement" on this website.

I debated selecting "accept as is," but figured there are minor issues that the authors might opt to address that could result in changes to the paper.
