line 54: -82 and -85 degrees latitude
=> 82 and 85 degrees S latitude

line 153: PG0 (83.6 S, 88.6 E)
=> show two decimal places as PG2 in Figure 1 caption is so.

line 82: for designing against similar faults
=> for protection from similar faults

(this would have been the reviewer's suggestion, I think)

line 103: 6 April 2019
=> April 6, 2019

(this is the only place European style is used for date)

line 154: January 6th, 2020
=> January 6, 2020

line 115: none of the 5 RUDICS enabled stations
=> none of the five RUDICS enabled stations

(the reviewer suggested "five" for "5" as well)
