Thank you for your good suggestions. 1. The sentence in lines 56-61, page 2 will be adjusted as the follows.” We will just intensive study the feature of component Z daily variation amplitude in China using the data after the completion of digital network until now on solar quiet days (2008-2019). The Z daily variation amplitude in different months, seasonal variation during more than ten years and comparisons of the Z daily variation amplitude between Yunnan province (in southwest of China) with other regions are studied in this paper.” 2. The sentence in line 204, page 7 will be deleted in the updated manuscript.
