

We thank the editor and first reviewer for the follow-up on the revised manuscript. In this updated version, we have made the following corrections:

1. Added page numbers to references from books, namely for Ray (2002) and Rowlands (2017). Please note that previous references to the first edition of Rowlands (2017) were now updated to the second edition of Rowlands (2020).
2. Updated the caption for Fig. 4 and specified the source for the base-image as being 'from the Tanquary Fiord (TF) survey (3 August 2018)'.
3. Removed the term '(vertical)' (line 399 in the revised document).
